

NEW Plan Hold® DATA FILE SYSTEMS

Keep all daily-use reference material within quick, easy reach

Plan Hold Data File Systems can be used for sorting mail, job specifications, catalogs, data processing sheets and other reference materials. The basic unit is a Data File Box with cut-away sides, formed of high-impact styrene. It is virtually indestructible, has a low noise level and measures 1¾" wide, 11½" deep, 8" high. An integral mounting rod reinforces each box and locks it firmly into a steel rack designed to hold 12 units. The Data File Box is easily removed; a simple, upward thrust disengages it from the rack. Any number of data files, in modular units of 12, can be used. Identification tabs are provided for each file.

Catalog No. DPWT Complete unit consists of 12 data files and one 24" rack. Price \$25.10.*

Plan Hold Data File Boxes, in modular units of 12, can be placed within easy reach on top of desks, tables and filing cabinets . . . or can be mounted on walls to any length or in multiple tiers.
